

The 14th International Peat Congress
Peatlands in Balance

Stockholm, Sweden
June 3-8, 2012

Proceedings

International Peat Society | IMTG MTC

DISCLAIMER:

The Organising Committee of the 14th International Peat Congress does not accept responsibility for the accuracy or completeness of the contents of the oral and poster presentations that are published in the Proceedings. These have not been 'peer reviewed' and have only been checked for English meaning and style and consistency with the 'Guide to Authors'. Authors should be contacted directly for further information.

Contents

KEYNOTES

Strategy for responsible peatland management – what and what next?
Jack Rieley

Challenges and prospects for the peat and growing media industry
Leading the way to responsible resource management of climate
Norbert Siebels

Peatlands in the global carbon cycle and their role as modifiers
Nigel Roulet

The governance of peatlands/wetlands in Sweden
Lena Ek/Anders Flanking

THEMES/SUB-THEMES

I. Inventory, stratigraphy and conservation of mires and peatlands

ABSTRACT

ABSTRACT NO

Spruce-Peatland Responses Under Climatic and Environmental Change An In Situ Warming by Carbon Dioxide Manipulation of a Characteristic High-Carbon Ecosystem.....	109
Paul J. Hanson, Randall K. Kolka, Colleen Iversen, Steven D. Sebestyen, Richard J. Norby, Brian Palik, Jeffrey Warren, Peter Thornton, Stan D. Wullschleger	
General review of the Peat Landscape Geochemistry in European Russia and distribution of Ge, U and 137Cs in peat soils.....	121
Vera N. Kreshtapova	
Sterol and N-alkaline biomarker composition of modern fen plants – potential application for palaeoecological analyses.....	186
Ronkainen, T	
The peat investigations in the Geological Survey of Finland.....	223
Samu Valpola, Asta Harju, Teuvo Herranen, Tapio Toivonen, Onerva Valo, Tuija Vähäkuopus	
The Accounting of peat resources in Finland.....	243
Asta Harju, Samu Valpola	

The Accounting of peat resources in Southern Ostrobothnia, Western Finland—a digital map service pilot.....	244
Asta Harju, Samu Valpola	
Holocene carbon accumulation in the Hudson Bay Lowland, Canada (Short abstract).....	263
Maara Packalen, Sarah Finkelstein	
Peat increment in the old mires of the Green Belt of Fennoscandia in Kuhmo - Kostamus watershed area.....	281
Tapio Lindholm, Oleg Kuznetsov, Raimo Heikkilä	
Digital Surface Model building on base of photo flights with an ultralight aircraft.....	357
Bernd Hofer, Imre Sajtos, Andre Hallscheidt	
Subfossil Swedish bog-pines as indicators of mid-Holocene palaeohydrology and climate.....	393
Johannes Edvardsson, Dan Hammarlund, Hans Linderson, Mats Rundgren	
Using ground penetrating radar to map peat condition at a landscape scale.....	452
Lauren Parry	
I.1 Mire ecology and biodiversity	
Can peatland plants take up organic nitrogen?.....	13
Tim Moore, Amanda Alfonso, Bev Clarkson	
Photosynthetic responses in Sphagnum spp. in temperate mires to temperature, pH and salinity (Short abstract).....	63
Akira Haraguchi	
Vegetation cycles in boreal peatland ponds: effects of drought and flooding.....	78
Barbara Nicholson, Suzanne Bayley	
Utilization of generalized linear and generalized additive models to predict Sphagnum and ericaceous shrubs distributions in peatlands.....	156
Rémy Pouliot, Line Rochefort	
Sphagnum decay rate as a functional trait (Short abstract).....	246
Fia Bengtsson, Håkan Rydin	

ABSTRACT

ABSTRACT NO

Microbial communities in boreal peatlands of the Athabaska region, Canada: building a reference for fen creation.....	251
Roxane Andersen, J.S Price, R.R.E Artz, T. Freitag	
Soil microbial diversity and spatiality across peatland vegetation mosaics under restoration in the southern Pennines, UK.....	258
Robin Sen, David Elliott, Felix Nwaishi, Graham Smith, Robin Caporn	
World of Sphagnum – distribution pattern as a reflection of ecology and taxonomy.....	293
Dierk Michaelis	
Vegetation composition and dynamics of forested mires in Finland during 1985–2006 (Short abstract).....	346
Leila Korpela	
Plant cover and state of treeless fen communities in Estonia.....	359
Laimi Truus, Mati Ilomets, Raimo Pajula, Kairi Sepp	
Vegetation and state of mire forests in Estonia.....	379
Raimo Pajula, Mati Ilomets, Kairi Sepp, Laimdota Truus	
Pollution and climate influences on vegetation of UK peatlands.....	404
Simon Caporn, Chris Field, Nancy Dise, Richard Payne, Lucy Sheppard, Ian Leith, Andrea Britton, Sally Power, Georgina Southon, Bridget Emmett, Rachel Helliwell, Laurence Jones, Steven Lees, Steve Hughes, Gareth Phoenix, Carly Stevens	

I.2 Mire hydrology and hydrochemistry

Laggs of raised bogs in coastal British Columbia, Canada: Hydrology, hydrochemistry, and vegetation at the mire margin.....	11
Sarah Howie, Paul Whitfield, Richard Hebda, Ilja van Meerveld	
Source of drainage water acidity in peat harvesting.....	42
Anneli Wichmann	
DIC and DOC in three mires representing different peatland development stages in a calcareous area of central Sweden.....	96
Anders Löfgren, Peter Saetre	

ABSTRACT

ABSTRACT NO

Seasonal variations in heavy metal content in water from a polluted mire in southern Poland.....	101
Beata Smieja-Krol, Barbara Fialkiewicz-Koziel, Arkadiusz Bauerek	
Influence of ditching on the hydrology of mire lakes.....	194
Pentti Åman, Johanna Partanen	
The impact of ditch blocking on peatland hydrology at the Gordonbush Estate, Brora, Scotland, UK.....	226
Ben Smith, Susan Waldron, Andrew Henderson, Hugh Flowers, David Gilvear	
Dissolved organic carbon concentrations in bogs under grassland in Northern Germany along gradients in soil organic matter and groundwater depth.....	232
Stefan Frank, Bärbel Tiemeyer, Annette Freibauer	
Estimation of mire water balance in Western Siberia.....	265
Yulia Kharanzhevskaya	
Hydrological modelling of peatlands – an evaluation of meteorological input data.....	273
Enrico Frahm, Ullrich Dettmann, Roland Fuss	
Runoff changes after rewetting of a cutover peatland in Sweden.....	310
Torbjörn Nilsson, Lars Lundin, Sabine Jordan, Elve Lode, Monika Strömgren	
Field measurement of the ground water flow in the high moor peat in the Sarobetsu Mire, Hokkaido, Japan.....	323
Koichi Yamamoto, Gatot Susilo, Toshio Noda, Masahiko Sekine, Tsuyoshi Imai, Yuko Yamamoto, Harukuni Tachibana, Kazuya Otani, Masayuki Oishi	
Effects of site characteristics on cumulative frequency distribution of water table depth in peatlands.....	360
Michel Bechtold, Michel Bechtold, Bärbel Tiemeyer, Enrico Frahm, Annette Freibauer	
The effects of regional groundwater in bogland restoration (Short abstract).....	361
Shane Regan, Paul Johnston	
Nitrogen and dissolved organic carbon (DOC) losses from a degraded peatland in North-Eastern Germany.....	367
Baerbel Tiemeyer, Petra Kahle	

Effects of peatland to water quality. Comparison of peat harvesting, peatland forestry and natural peatland using continuous monitoring stations.....	395
Pia Högmander, Päivi Saari	
Value-adding of fen peatlands using their purification potential with respect to surface water.....	423
Dagmar Balla, Sebastian Maassen, Ralf Dannowski, Anja Coors Yulia Kharanzhevskaya	

I.3 Peatlands as historical archives

Simple geochemical characteristics of peat in reconstructing peatland history.....	30
Monika Metrak, Malgorzata Suska-Malawska	
Carbon accumulation shows the interplay between the natural succession of mires and climate changes.....	49
Markku Mäkilä, Matti Saarnisto	
Peatland dynamics in Patagonia: abrupt mid-Holocene fen-to-bog transition and carbon sequestration implications.....	54
Julie Loisel, Zicheng Yu, Paolo D'Odorico	
Fire history and vegetation recovery in two raised boreal bogs.....	57
Minna Väiliranta, Ülle Sillasoo, Eeva-Stiina Tuittila	
¹⁴ C, ²¹⁰ Pb and bulk peat composition as the crucial proxies for reconstruction of human impact in the peat bog from Southern Poland.....	61
Barbara Fialkiewicz-Koziel, Natalia Piotrowska, Piotr Kolaczek, Edyta Lokas, Przemyslaw Wachniew, Michal Woszczyk, Adam Michczynski	
Alaskan Peatland Carbon Dynamics During Past Warm Climate Intervals.....	74
Zicheng Yu, Julie Loise, Stephanie Hunt, Eric Klein, Robert Booth, Daniel Brosseau, Joan Ramage, Miriam Jones, Bryan Mark, Qianlai Zhuang, Benjamin Felzer	
Palaeoecological study of Desmidiospora-like fungus from poor fen in North-Eastern Poland.....	76
Mateusz Wilk	
Recent changes in peat properties and vegetation in Swedish mires (Short abstract)...	119
Kristian Schoning, Amanda James, Gustav Sohlenius	

ABSTRACT

ABSTRACT NO

Holocene vegetation change in Sarufutsu River Mire, northern Hokkaido, Japan.....	124
Hiroko Fujita, Yaeko Igarashi, Yukie Kato, Takashi Inoue, Masayuki Takada	
More than 100 years of Swedish peat studies (Short abstract).....	133
Gustav Sohlenius, Kristian Schoning	
High latitude peat deposits in Canada and Russia as climate archives.....	159
Päivi Kaislahti Tillman, Steffen Holzkämper, Thorbjørn Joest Andersen, Gustaf Hugelius, Peter Kuhry, Britta Sannel	
Balance or imbalance of a raised bog in a changing environment?.....	222
Ulla Kokfelt, Mats Rundgren	
Surface Profile Change at Cors Fochno, Wales, UK.....	250
Fred Slater	
Peatland archives of Holocene volcanic eruption in response to changes of paleoclimate in Northeast China.....	306
Ting Huang, Shenggao Cheng, Xumei Mao, Peng Gong	
The holocene vgetation reconstruction from mire and lake sediments in North Eastern LATvia using pollen records.....	316
Ilze Ozola, Laimdota Kalnina, Vita Ratniece	
Fen and raised bog develoment in the areas of former Littorina sea lagoons at the coastal lowland of Latvia.....	320
Laimdota Kalnina, Aija Cerina, Ilze Ozola, Ieva Grudzinska, Agnese Pujate, Eliza Kuske	
The peatlands of Little Balaton as historical archive palaeoecological research in the surroundings of the lateantique castle in Keszthely Fenékpuszta (Short abstract).....	378
Sylvia Hipp	
Compound-Specific H and C isotope measurements reveal new aspects.....	380
of Holocene Hydrological and Carbon Cycles Jonathan Nichols, Peter Isles, Dorothy Peteet, Yongsong Huang	
Changes in vegetation composition during the development of fens in glaciodepressions of the Austrumkursa Highland, Southern Latvia.....	415
Eliza Kuske, Laimdota Kalnina, Aija Cerina, Anete Dinkite	

Re-thinking the record: accumulation of radiometric tracers
and other atmospherically supplied elements in peatlands.....449
Sophia Hansson, Jim Kaste and Richard Bindler

3D-landscape modeling and environmental reconstruction.....450
Andreas Bauerochse, Andreas Niemuth

I.4 Mire conservation and wetlands for landscape functionality

Mapping peatland drains using high-resolution satellite imagery (Short abstract).....103
John Connolly, Nicholas Holden

Mapping peatland disturbance in Ireland (Short abstract).....104
John Connolly, Nicholas Holden

Conservation and Management of Raised Bogs in Ireland.....165
Catherine O’Connell

Estimating the Vulnerability of Mires and Peatlands
to Climate Change in northeast-Germany.....183
Nadine Nusko, Ron Meier-Uhlherr, Vera Luthardt

Towards the first Peatland Policy in Ireland.....203
Florence Renou-Wilson

Estimation of mires stability based on time-spatial landscape classification.....215
Anna Sinyutkina

Up-scaling possibilities of environmental changes on long-term
peatland management at Porla mire.....228
Elve Lode, Sabine Jordan, Lars Lundin, Torbjörn Nilsson, Monika Strömgren

A Conservation Management Plan for Lodge Bog 2011 - 2016.....233
Tadhg O Corcora

Hydrological behavior of a raised bog following
the damming of a deep and broad ditch (Short abstract).....325
Sylvain Jutras, Olivier Marcoux, Line Rochefort

The floodplains of the northern river Oder:
Spatial allocation of deposits and soils, recent ecological state and biodiversity.....334
Jana Chmielecki, Vera Luthardt

ABSTRACT

ABSTRACT NO

Arctic peatlands diversity and natural features – the gaps in knowledge.....	410
Tatiana Minayeva, Andrey Sirin	

I.5 Peatland Ecosystem Services

Purification of water in natural and disturbed peatlands.....	88
Vladimir Panov	

Peatland strategies and programs in Finland (Short abstract).....	154
Anne Tolvanen	

CARBSTOR – A new method quantifying C-storage and evaluating C-release potentials of specific peatland types.....	188
Christian Heller, Diana Möller, Jutta Zeitz	

Development of a holistic evaluation method for ecosystem services of peatlands.....	196
Claudia Schröder, Vera Luthardt, Florian Jeltsch	

Peatland Restoration for Ecosystem Services - The IUCN UK Commission of Inquiry on Peatlands.....	295
Aletta Bonn	

Ecosystem services of boreal mires and peatlands.....	309
Kaisu Aapala, Marianne Kettunen, Emmi Haltia, Raimo Heikkilä, Timo J. Hokkanen, Paula Horne, Jukka-Pekka Jäppinen, Hannu Luotonen, Liisa Maanavilja, Arvo Ohtonen, Anni Ruokolainen, Lauri Saaristo, Tapani Sallantaus, Suvi Silvennoinen, Eeva-Stiina Tuittila, Harri Tukia, Petteri Vihervaara	

Estimation of nickel distribution in mire vegetation on Olkiluoto Island.....	339
Lasse Aro, Ari T.K. Ikonen	

The Challenge of Managing a Keystone Ecosystem: Cumulative Industrial Impacts in a Peatland-dominated Landscape in Alberta, Canada.....	389
David Locky	

WISE Peatland choices - a GIS based tool to prioritise restoration opportunities on the peatlands of Scotland, UK.....	390
Rebekka Artz, David Donnelly, Matt Aitkenhead, Roxane Andersen, Steve Chapman, Pete Smith, Jo Smith	

ABSTRACT

ABSTRACT NO

The effect of nitrogen deposition on vegetation
and soil processes in ericaceous-dominated ecosystems.....399
Chris Field, Simon Caporn, Lucy Sheppard, Nancy Dise

A decision support system for degraded and abandoned peatlands -
a tool for balancing options in peatland management.....413
Andreas Haberl, Susanne Abel, Andreas Haberl, Hans Joosten

II. Peat for horticulture, energy and other uses

ABSTRACT	ABSTRACT NO
Peat sorbents for arsenic removal.....	32
Linda Ansone, Maris Klavins, Linda Eglite	
Role of peat deposits and peat in the nature and human life.....	95
Ivan Lishtvan	
II.1 Peat for horticulture	
Joint Unit of Compressing Integral Substrate (JUCIS) – a new Chinese growing medium.....	81
Xianmin Meng	
Harvesting of Sphagnum biomass and its use as a growing medium constituent.....	137
Olli Reinikainen, Juha Korpi, Risto Tahvonen, Juha Näkkilä, Niko Silvan	
The rise and fall of peat in UK horticulture.....	298
Paul Waller	
Behaviour of young trees cultivated on peats with different degrees of decomposition.....	347
Bill Carlile, Dearbhail NiChualain, Costantino Cattivello	
Facts, figures and fallacy – half truths driving the phasing out of peat in horticulture in England.....	371
Jack Rieley	
Sphagnum ssp. vs. Tephrocybe palustris – new efforts in the struggle against this important sphagnicol fungus.....	381
Stefan Irrgang, Mariana Schuster, Armin Blievernicht, Matthias Zander, Christian Ulrichs	
Colour of peats as an indicator of chemical and physical properties.....	412
Dearbháil Ní Chualain & Munoo Prasad	
Reduced phosphorus fertilization in peat-based substrates with added Bara clay and mycorrhizal inoculation.....	453
Mats Kron, Siri Caspersen	

II.2 Peat for energy

ABSTRACT	ABSTRACT NO
Chemical properties of fuel peat..... Jaakko Lehtovaara, Minna Salonen	46
Peat soil properties and erosion: does degree of humification affect erosion conditions at peat mining sites?..... Hannu Marttila, Tapio Tuukkanen, Björn Klöve	117
Lake sediment research in estimation of environmental impact of peat production – dramatic changes in sedimentation rate in Finnish lakes?..... Samu Valpola	224
Recent debate on peat exploitation in Finland..... Raimo Heikkilä, Tapio Lindholm	280
Using biomass as substitute for peat. Example for wet peatland management (paludiculture) in Belarus..... Wendelin Wichtmann, Wendelin Wichtmann, Aleg Sivagrakau, Nina Tanovitskaya, Aleh Rodzkin, Vyacheslav Rakovich	284
Peatland resources and the use of energy peat in Finland..... Kimmo Virtanen	303
Processes and site characteristics controlling nutrient and sediment runoff loads from peat harvesting sites..... Tapio Tuukkanen, Bjørn Kløve, Hannu Marttila	312
Prospects for Milled Production by Bord na Móna in Ireland, in the period to 2030: Drivers & Potential Uses..... John Reilly	349
Climate impact of energy peat utilisation scenarios - importance of peatland type, production method and aftertreatment..... Kristina Maria Holmgren, Linus Hagberg	355
What sustainable development means for peat..... Magnus Brandel	368
Co-Combustion of Reed Canary Grass and milled peat in a Bioenergy combine..... Jan Burvall	422

ABSTRACT

ABSTRACT NO

Peat excavation and drying for factory-made local fuel production.....	447
Aleksandr Mikhailov, Dmitriy Nagornov	

II.3 Peat harvesting and processing technology

Development of new sod peat production technology in Finland.....	155
Arvo Leinonen, Juha Niemiaho, Ari Erkkilä	

A case study of the peat production potential of agricultural peatlands in the Seinäjoki region in Finland.....	198
Frans Haapaniemi, Harri Vasander, Päivi Picken, Kimmo Virtanen, Mika Yli-Petäys	

III. Agricultural use of peat and peatlands

ABSTRACT	ABSTRACT NO
Utilization of spropel in agriculture.....	37
Lech Szajdak, Anatol Sakowicz	
Impact of solvent on the elution rates of organic matter from the secondary transformed peat-moorsh soils.....	38
Lech Szajdak, Marek Szczepanski	
Effects of land use change for nutrition dynamics in fen soils in the nature park Ohre-Drömling.....	40
Stefan Schob, Ralph Meißner, Holger Rupp, Sabine Bernsdorf, Fred Braumann	
Drainage effects on labile organic carbon fraction in top layers of peatlands.....	72
Barbara Kalisz, Andrzej Lachacz, Roman Glazewski	
Scientific basics of investigations on reclamation and use of peat and peatlands in agriculture of Russia.....	120
Vera N. Kreshtapova, Vladimir M. Kosolapov, Boris S. Maslov, Nicolay A. Semionov, Alexandr A. Zotov	
Effective use of peat products in pig industry.....	127
Liliya Stepchenko, V Yefimov, M Garashchuk, V Rakytyansky, R Bolgarchuk, K Kostyushkevych	
The efficiency of feed additives from peat in ostrich farming in Ukraine.....	128
Liliya Stepchenko, L Galuzina, S Kolyada, E Goncharova	
Development of biocadastre of Ukrainian peats and its use in creating of new humic preparations for agriculture.....	129
Liliya Stepchenko, N Syedykh	
The xanthine oxidase activity participating in cycle nitrogen in peat profile of Kusowo bog (Short Abstract).....	135
Lech Szajdak, Katarzyna Styla	
The influence of IAA content on the phenol oxidase activity in commercial growing media used for ornamental plants crop.....	136
Lech Szajdak, Katarzyna Styla	

ABSTRACT

ABSTRACT NO

HYDBOS: A guidance tool for sustainable utilization of hydromorphic soils under changing climate conditions: Part I - Soil and Hydrology.....	190
Evelyn Wallor, Janine Dzialek, Jutta Zeitz	
HYDBOS: A guidance tool for sustainable utilization of hydromorphic soils under changing climate conditions: Part II - Vegetation and Production.....	191
Janine Dzialek, Evelyn Wallor, Jutta Zeitz	
The area of cultivated organic soils in Finland according to digitized maps.....	241
Merja Myllys, Harri Lilja	
Factors controlling Green House Gas turnover in Norwegian cultivated Peat land soils.....	277
Simon Weldon, Daniel Rasse, Peter Dorsch, Leif Klemetsson, Arne Grønland	
Towards more diversity in paludiculture. A literature study of useful wetland plants - opportunities, limits & risks of their cultivation.....	299
Susanne Abel, John Couwenberg	
How peatland is affected by neighboring agriculture. A combined approach to determine atmospheric nitrogen deposition at a moderately-drained peat bog site.....	324
Miriam Hurkuck, Christian Brümmer, Werner L. Kutsch	
Paludiculture - Experiences from agricultural use of rewetted fens in North East Germany.....	372
Christian Schröder, Wendelin Wichtmann, Sabine Wichmann, Hans Joosten	
Spatial and temporal variability of extractable inorganic nitrogen in the topsoil of German peatlands.....	376
Baerbel Tiemeyer, Niko Roszkopf, Tim Eickenscheidt, Mandy Peichl-Brak, Colja Beyer, Sascha Beetz, Katharina Leiber-Sauheitl, Michael Giebels, Annette Freibauer	
Submerged infiltration to halve subsidence and GHG emissions of agricultural peat soils.....	383
Jan van den Akker, Rob Hendriks, Idse Hoving, Matheijs Pleijter	
Global potential of paludiculture as land use alternative for rewetted peatlands.....	387
Alexandra Barthelmes, René Dommain, Hans Joosten	

ABSTRACT

ABSTRACT NO

Life cycle assessment of energy biomass from rewetted peatlands.....394
Tobias Dahms

Effects of submerged drains to reduce subsidence
of agricultural peat soils on nutrient loading of surface water
(Short Abstract).....431
Rob Hendriks, Jan Van en Akker

III.1 Special session: MYRKLIMA – mitigation of climate change impacts of cultivated peat soils

Effects of different peatland management options
on CO₂ emissions and physical properties of peat.....65
Pirkko Mustamo, Maarit Hyvärinen, Anna-Kaisa Ronkanen, Bjørn Kløve

Mitigation of nitrous oxide emissions from peat soils used
for forestry or agriculture by controlling the biogeochemical processes.....71
Maarit Liimatainen, Pertti Martikainen, Marja Maljanen

Atmospheric impact of abandoned boreal organic agricultural
soils depends on hydrology of peat.....97
Marja Maljanen, Jyrki Hytönen, Päivi Mäkiranta, Jukka Laine, Pertti J Martikainen

Phosphorus in peat soils and risk for leaching after rewetting drained peatlands.....113
Maarit Hyvärinen, Pirkko Mustamo, Anna-Kaisa Ronkanen, Bjørn Kløve

Mitigating greenhouse gas emissions from cultivated organic soils
Carrots, pastures, barley or potatoes? Which crop to choose?.....148
Lisbet Norberg, Örjan Berglund, Kerstin Berglund

Emissions of greenhouse gasses from peat soils under
different management and drainage (Short abstract).....432
Poul Erik Lærke , Mette Lægdsmand, Kirsten Schelde, Charlotte Kjaergaard

IV. Chemical, physical and biological characteristics of peat

ABSTRACT	ABSTRACT NO
Changes of peat humic acid properties during peat genesis process.....	14
Maris Klavins, Oskars Purmalis	
Humic acid properties in three different peat profiles.....	15
Oskars Purmalis, Maris Klavins	
Major and trace elements in humic acids from raised bog peat profiles in Latvia.....	17
Diana Dudare, Maris Klavins	
Basic peat forming moss chemical properties contributing towards their antimicrobial activity.....	21
Laura Klavina, Gunta Springe, Inese Silamikele, Vizma Nikolajeva	
Application of multidimensional statistical methods in analyses of peat geochemical features.....	29
Monika Metrak, Ingeborga Jarzyna, Malgorzata Suska-Malawska	
A comparative study of low moor and sapropel properties.....	43
Karina Stankevica, Maris Klavina, Liga Rutina	
Investigations of the sorption of radionuclides by raised bog peat.....	83
Andris Abramkovs, Janis Alksnis, Maris Klavins, Andris Popelis, Janis Rudzitis	
Accumulation of the major and trace elements in fens (Latvia).....	84
Janis Krumins	
Uncertain physical parameters of peat.....	102
Volker Schweikle	
The effect of using different quality and quantity of carbon component on the acid phosphatase enzyme activity in peat.....	105
Mohd Faizal Ahmad Ramli, Dominic Standing, David Johnson	
Peat as sorbent for the removal of phosphate ions from aqueous solution.....	140
Artis Robalds	
Decomposition of peat during simulated summer drought.....	143
Karlijn Brouns	

ABSTRACT	ABSTRACT NO
Peat based sorbent for oil removal..... Dmitry Porshnov	144
The variation of the amount of inorganic constituents in some common mire plants during the vegetative season..... Kimmo Virtanen, Ari Luukkanen	168
Characterization of peat-electrical properties by means of geoelectrical measurements..... Judith Walter, Erika Lueck, Albrecht Bauriegel, Jutta Zeitz	193
Relations between the decomposition of peat and soc in fens of Northeastern Germany..... Christian Klingenfuss	200
The sulphur concentration of peat in Finland..... Teuvo Herranen, Samu Valpola, Asta Harju, Onerva Valo	229
Humic acids for medical use: 1. Understanding the influence of peat formation on humic acid quality..... Guido Meyer	287
Humic Acids for Medical Use: 2. Replacing Hydrochloric Acid by an Organic Acid in the Precipitation of Humic Acids..... Guido Meyer, Renate Klöcking	291
The content of chemical elements in peats of the southern taiga subzone of the Tomsk region..... Elena Guzova	308
Laboratory evaporation experiments in undisturbed peat columns for determining peat soil hydraulic properties..... Ullrich Dettmann, Enrico Frahm, Michel Bechtold	314
The sulphur concentration of peat in sulphate bearing areas - case Kruunupyy, Finland..... Teuvo Herranen, Samu Valpola, Onerva Valo, Tapio Toivonen, Asta Harju, Tuija Vähäkuopus	322
Studies on the bimodal effect of humic substances in the blood clotting system..... Hans-Peter Klöcking, Renate Klöcking	427

ABSTRACT

ABSTRACT NO

Preclinical studies on humic substances of different origin.....	428
Renate Klöcking, Carola Kleiner, Ralf Junek, Roland Schubert, Andrè-Michael Beer, Julian Lukanov, Plamen Sagorchev, Hans-Peter Klöcking, Jürgen I. Schoenherr	

V. Restoration, rehabilitation and after-use of disturbed peatlands

ABSTRACT

ABSTRACT NO

Ecological restoration of lagg-swamp species on cut-over peatlands.....	24
Etienne Paradis, Line Rochefort	
First results of the soil water, nutrient and vegetation dynamics of a rewetted mire in the German Harz National Park.....	35
Katja Osterloh, Nadine Tauchnitz, Sabine Bernsdorf, Hans-Ulrich Kison, Ralph Meißner	
Five years of experimental restoration of vacuum-mined bog in Northern Poland.....	50
Paulina Cwiklinska, Agnieszka Sadowska	
Peatland management in Germany: EU-subsidies and restoration strategies.....	60
Simone Witzel, Theodor Fock	
Challenges of peatland recultivation in Latvia.....	90
Inese Silamikele, Juris Nusbaums, Ivans Cuprunis, Ilze Ozola	
Delivering on promises: the Bord na Móna Biodiversity Action Plan 2010-2015.....	162
Catherine Farrell, David Fallon, Mark McCorry	
Knowledge transfer from scientists to stakeholders: promotion of responsible peatland management following peat extraction.....	169
Sandrine Hugron, Line Rochefort	
Large scale production and distribution of Sphagnum species for successful bog restoration.....	178
Neal Wright, Simon Caporn, Stephanie Hinde, Angus Rosenburgh, Matt Buckler	
Ten Years in rehab, what have we learned in Mayo?.....	185
David Fallon, Mark McCorry, Catherine Farrell, James Moran	
Sphagnum ecophysiology of restored, drained, and pristine boreal spruce swamp forests.....	187
Laura Kangas, Liisa Maanavilja, Tomáš Hájek, Eija Juurola, Rodney Chimner, Eeva-Stiina Tuittila	
Effect of long-term drainage and hydrological restoration on peat properties in spruce swamp forests.....	197
Liisa Maanavilja, Zuzana Urbanová, Tomás Pícek, Jiri Bárta, Raija Laiho, Eeva-Stiina Tuittila	

Restoration of a 15 ha fen ecosystem: vegetation establishment and stabilisation challenges.....	208
Marie-Claire LeBlanc, Marie-Claire LeBlanc, Maryse Gendron, Line Rochefort	
Restoration of water quality and biology in two rewetted cut-over peatlands.....	231
Lars Lundin, Elve Lode, Sabine Jordan, Torbjörn Nilsson, Monika Strömgren	
Secondary succession in abandoned block-cut mined peatlands.....	259
Eduardo Gonzalez, Monique Poulin, Line Rochefort	
Establishing vascular plants from seeds around pool margins in restored peatlands (Short abstracts).....	264
Monique Poulin, Tommy Landry, Virginie Laberge, Line Rochefort	
Regularities and driving factors of spontaneous re-vegetation of extracted milled peatlands in Estonia.....	282
Triin Triisberg	
Developing habitat management techniques to enhance the value of Bord na Móna cutaway raised bogs in Ireland for breeding waders.....	288
Mark McCorry, Alex Copland, Tom Egan, David Fallon, Catherine Farrell	
Coillte and the EU LIFE Programme: 10 years of restoration works on afforested peatlands in Ireland.....	296
Michael Delaney, Angela Wallace	
Testate amoebae reflecting present environmental conditions in restored cut-over bogs - a new tool for evaluation and monitoring?.....	366
Peter Raabe, Till Kleinebecker, Mariusz Lamentowicz	
Effect of N and P on the re-establishment and growth of <i>Campyllum stellatum</i> and <i>Scorpidium scorpioides</i> on calcareous spring fen.....	373
Kairi Sepp, Mati Ilomets, Raimo Pajula, Laimdota Truus	
Natural capping of the landfill Volgermeerpolder A sustainable method using ecology to isolate chemicals in soil.....	385
Paul Stook, Marten Van der Wijk	
A question of imbalance.....	430
Rémy Pouliot, Roxane Andersen, Line Rochefort, Flor Salvador	
Restoration of peatlands after selective white peat excavation.....	448
Aleksandr Mikhailov	

V.1 Sphagnum farming (Joint II & V)

ABSTRACT	ABSTRACT NO
Reducing greenhouse gas emissions by Sphagnum farming?.....	34
Kerstin Albrecht, Stephan Glatzel	
Renewability, use and properties of Sphagnum biomass for growing media purposes...55	
Niko Silvan, Kaisa Silvan, Juha Näkkilä, Risto Tahvonen, Olli Reinikainen	
Development of a Technology for Harvesting Peat Moss on Floating Mats.....164	
Jan Häbler, Felicitas Bechstein	
The youngest peat – sustainable production of peat moss and its use as growing medium in professional horticulture.....247	
Armin Blievernicht, Stefan Irrgang, Matthias Zander, Christian Ulrichs	
Sphagnum farming on bog grassland in Germany – first results.....294	
Matthias Krebs, Greta Gaudig, Hans Joosten	
Sphagnum propagules from spores: first experiences.....307	
Franziska Gahlert, Anja Prager, Jenny Schulz, Hans Joosten	
Are Sphagnum propagules still vital when stored up to 12 months in a fridge?.....365	
Anja Prager, Franziska Gahlert, Jenny Schulz, Hans Joosten	
Paludiculture – ecosystem services of Sphagnum farming on rewetted bogs in NW Germany.....369	
Sabine Wichmann	
Sphagnum farming in Germany - 10 years on the road to sustainable growing media.374	
Greta Gaudig, Franziska Gahlert, Matthias Krebs, Anja Prager, Sabine Wichmann, Hans Joosten	
Sphagnum regeneration on Irish Cutaway Peatlands (Short abstract).....444	
Pamela Ryan, John, F. Creedon, Dearbhail Ni Chualain and Catherine Farrell	

V.2 Special session: Mountain Peatlands - restoration, sustainable use, and ecosystem services

Use of remote sensing to inventory mountain peatlands in Lesotho.....91	
Peng Gao, Carl Trettin	

ABSTRACT

ABSTRACT NO

Ecological characterization of peatlands in the Maloti Mountains, Lesotho.....	92
Carl Trettin	
Condition assessment and restoration of the peatlands of the Snowy Mountains, south east Australia.....	123
Geoffrey Hope, Rachel Nanson	
Mountain peatlands of the Central Andes: Current research on bofedales in Bolivia...	138
